Campagnolo

1996

A collection of various bicycle components, including a large chainring, a crank arm, a pedal, a rear derailleur, a cassette, a chain, and various bolts and nuts, arranged on a dark background. The components are primarily made of polished metal, likely aluminum or steel, and are laid out in a way that showcases their individual parts and finishes. The background is dark and textured, providing a high contrast for the metallic parts. The components include a large chainring with a five-spoke design, a crank arm with a long arm, a pedal with a black and silver design, a rear derailleur with a complex mechanism, a cassette with multiple sprockets, a chain with a standard roller design, and various bolts and nuts of different sizes and shapes. Some of the components have the brand name 'Campy' visible on them.
